Fax: (727) 375-8710

Website: www.turbinedoctor.com

Turbine Diagnostic Services Inc. is proud to announce that we have moved into our new headquarters in Odessa, Florida. The new location now houses both the office facilities of the old Odessa building and the shop and storage facilities of our old Brooksville, Florida, site. This move is in lieu of our former plan to build new headquarters in Wesley Chapel, Florida.

Our new 40,000 square foot building provides added office space and will house all field and engineering operations at the same physical location. The expanded machine shop will include a crane and other facilities which will enable TDS to reduce our logistics and to perform in-house repairs of large turbine generator parts which, in turn, will increase the speed and efficiency of all the services we provide our clients.

For more information please visit our website at www.turbinedoctor.com.
